

# eirpoint® e-Point –Retail Solution

## MULTI-CHANNEL READY

Our solution is ready to support retailers that sell in store, online and at pop-up mobile events. All data from all channels feeds back to a single ERP database.

## RETAIL DRIVEN TOOLS

Our software is based on the experience of retailers operating in best practice environments. The software supports retailers that know the value of great policies and procedures.

## FLEXIBLE INVESTMENT OPTIONS

Investing in business systems must show a return on investment benefit to your business. We own our software and can offer flexible payment terms.

Call us now for more information & let us demonstrate the system
