

eirpoint™

air-Point – airport / FBO mobile POS /Payments

ENABLING ANCILARY REVENUES

air-Point mobile retail and payments moves your sales process closer to your customer. Whether it is refueling or other services your customers require our mobile POS solution allows the transaction to be processed with convenience for the customer.

SALES MANAGEMENT

You can easily check on the real-time status of sales within the system and quickly change products, prices and promotions to improve sales. The system can be configured to capture and identify repeat customers allowing you to get closer to your customers.

FLEXIBLE PAYMENT OPTIONS

We offer this solution as a Software As A Service thereby reducing the capital costs to deploy.

Solution Overview

air-Point combines the best of mobile retail technologies with retail management software in order to give airport and fixed-base operators full control and visibility of their ancillary sales business and operations.

The mobile solution supports FBO transactions processing including fuel, APU services, LAV services and landing fee charges.

The system is designed for ease of use allowing operations staff to quickly adapt to the new technology.

The fully featured cloud based back-office software allows complete management of the retail operations, provides business intelligence and can integrate to existing systems.

- ✓ **Airport Ready:** Designed for airport operators, airlines and ground handlers to maximize ancillary revenues from mobile sales both airside and landside.
- ✓ **Latest mobile technology:** works on smart phones or tablets with optional mobile printing and card reading peripherals.
- ✓ **Card Ready:** with our PCI accredited mobile card payment solution you can offer cards as a payment option and reduce cash handling issues.

What our clients say:

eirpoint provide simple solutions to complex problems to improve productivity and profitability

Charles Graylen, Airport Manager,
Gamston (Redford) Airport

Since introducing eirpoint's mobile retail solution to Bristol Airport, the service to our customers has been greatly enhanced, helping to provide a quick and easy transaction process

Phil Holder, Operations Manager at Bristol International Airport
